Message

It gives me immense pleasure to welcome the students joining the Balochistan Agriculture College which is first educational institution imparting agricultural education to the students of the province. The Balochistan Agriculture College was established in 1986 on the directive of President of Pakistan after realizing the immense need for professionals in the field of agriculture. Since inception, it has produced around 800 graduates and 36 post- graduates in various disciplines of Agriculture. The annual intake of the college has been kept at a base minimal level of 200 students in under graduate and 4 seats for each department in post graduate to ensure the quality of education.

The College has been offering the best facilities and environment to the students. They have been provided classrooms and equipped science laboratories and computer laboratory with high speed internet facility, a library having a collection of more than 5000 books, other facilities include co-curricular and extra-curricular activities and dedicated academic faculty.

It is a matter of great pleaser that the college has been upgraded to a university. A project has been approved by the government. The state land of 200 acres has been acquired in Nohsar, Quetta for the said purpose which is situated at a distance of just 13 kilometers from the present college premises. It gives me immense pleasure to acknowledge valuable services of Honorable Chief Minister Balochistan, Minister for Agriculture and worthy Secretary of Agriculture who are working diligently to expedite the process of up gradation.

Today our graduates are serving the province in diverse agriculture related areas in different capacities. It is up to the newly admitted students to take advantage of the facilities available at the college and adorn themselves with education in the field of agriculture to meet the challenges of tomorrow.

I wish you all the best in your pursuit of education.
